

Press Release

In an attempt to strengthen the awareness for global warming among the general masses / society , prothsahan team NGO has organized a global warming awareness march involving the school children of Siddhartha Intl, Hansraj, Govt Girls (J&K) schools located in dilshad garden, delhi.

Approximately 150 students from school were motivated by area MLA & Chairmen of trans Yamuna Vikas Board, Dr Narendra Nath, Sh Veer Singh Dhingan MLA, Ms Preeti-councillor, & Sh Jitender Singh-councillor, Magician Sh Rajkumar organized the whole event & showed some magic on Global Warming Awareness.

Dr RC Trivedi Addl Director, CPCB & other scientists from CPCB, Min of Environment & Forests (GOI) attended the event and admired the efforts and initiative taken by Prothsahanteam –NGO. NGO president Mr Vivek Vashistha told that their motive is to raise the Global Warming Problem seriously through childrens in front of society, if this fact will enter into the mind of childrens, they'll start contributing positive efforts to clean our environment right from their childhood. PT has raised some guidelines which can stop Global Warming without spending single penny of common men. He told that this is the time when awareness is very much required and for the sake of childrens future/ health we/everyone should come up and take preventive measures to stop Global Warming. Sh DC Garg advisor & president RWA association told that knowingly/ unknowingly everyone is doing or polluting our environment through our day to day life. If we think and convert our lifestyle little a bit, we'll be able to do some thing good for our environment. Founder ProthsahanTeam Mr Alok Vashisth has emphasized on limit on individual heat & temperature production has to be decided legally. He also told that they are also planning to educate childrens for environment through informative and educative presentations/ slides through their volunteers, who will go to each schools and let them aware for Global Warming with the help of their teachers.

Organising secretary Sh KB Verma appealed Volunteers/ Corporates/ Schools/ RWA's to concentrate some time on environment switch to more of non-polluting solar energy more aggressively. As per secretary Mr Sanjay Sinha, ProthsahanTeam is raising awareness on some key facts , as Dipawali festival is coming and on single day we've to face pollution several times more than a normal time, we should collectively think of following :

- Change bulbs to CFL , & never destroy CFL, (manufacturer of CFL should take back from consumers)
- Stop Using CRACKERS.
- Plant more & more trees.
- Avoid chlorine.
- Corporates to get them audited for electric/water usage.
- Don't waste fuel, water, electricity.
- RWA's to put more efforts on sagrigation of biodegrable/ non-biodegradable waste at initial level, and use biodegradable into manure production in colonies parks.

Mr Vivek Vashistha also stated that he wish to mention very simple and informative points through their website: www.prothsahanteam.com for common public, sothat any citizen can understand and utilize the facts, provided by genuine resources concerned.

Thanking you,
Yours truly,
For ProthsahanTeam,

Sanjay Sinha
Secretary
